DETAILED ACTION

Claim Objections

1. Claims 3-7 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only. Further, claims 4-7 and 9-10 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. Claim 8 is objected to for being dependent on an improper multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by GE Co., Ltd., GB 1,361,225.

4. In figure, GE Co., Ltd. discloses a discharge vessel (1) with an end part (2) and a discharge cavity. The discharge vessel has a coating layer (12) located in the gas-tight area between the end portion (2) and a sealant (14). The gas-tight bonding of the coating layer (12) is stronger compared to the direct gas-tight bonding (page 2, lines 53-62).
